Product Designer with 5 years in fintech, iGaming, EdTech and crypto, focused on complex management platforms. I take products from research to a coded design system, designing in code, not only in Figma.

WORK EXPERIENCE

Sharkscode - Product Designer

Mar 2025 - Now / Remote

- Leading product design for an iGaming CRM and back-office ecosystem: management, payments and internal services.
- Redesigned key CRM workflows and manager journeys; **support requests down ~40%**.
- Moved the design system from Figma to code: **120+ coded components** in Storybook and a Claude Code workflow for prototypes and handoff, cutting **design time per task from 5 to 3 working days**.
- Migrated gamification services into the internal platform; **third-party costs down ~25%**.

Pocolo - Middle UX/UI Designer

Jan 2023 - Apr 2025 / Remote

- Took web and mobile products from scratch to release across fintech, crypto, education, healthcare and logistics.
- Built the mobile app for a **Top 100 U.S. university** end to end: campus, communication and safety flows.
- Designed the interface for a projection-based hardware product that later **received a Red Dot Award for Product Design**.
- Delivered banking interfaces, dashboards, transaction flows and data-heavy management tools.

Pocolo - Junior UX/UI Designer

May 2022 - Jan 2023 / Remote

- Created wireframes, prototypes and high-fidelity interfaces for web and mobile products across multiple domains.
- Supported user research, information architecture, user flows and design handoff throughout the product design process.
- Collaborated with lead designers, developers and cross-functional teams to explore and validate product solutions.
